

Changing Tomorrow Together

Dear Mr. Coffman:

Since the beginning of Eagle Village, camps have been an important opportunity for many lives to be changed, not only children but staff and parents too.

One of our very first counselors recently wrote this, "I had the pleasure to work during the first several summers of the summer camp. The experiences for counselors and campers were transformational in our lives. The impact was both immediate and life-long. I am grateful for those who made these extraordinary experiences possible. Countless lives were blessed and continue to be blessed because of The Eagle Village Summer Camp Experience." *(Dave Porteous, Chairman Emeritus, Michigan State University Board of Trustees)*

Thank you for your donation and the important opportunity to continue to change lives together for tomorrow.

Sincerely, *Thank you!*
